DETAILED ACTION

Allowable Subject Matter

Claims 1-16 are allowed.

The following is an examiner's statement of reasons for allowance.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US Patents Nordquist, Gorman, Bewsher, Jung, and Ngoi each disclose a non-spherical lens for refracting light or lasers.

Regarding independent Claim 1, the cited prior art do not disclose a non-spherical lens element that has four curved surfaces (1-4) on one side where the first surface is opposite to the third surface and the second surface is opposite to the fourth surface with an undeviating laser rays area formed at the intersection of the four curved surfaces.

Regarding independent Claims 8 and 16, the prior art do not disclose four curved surfaces (1-4) on one side where the first surface is opposite to the third surface and the second surface is opposite to the fourth surface and the curved surfaces bend toward two lateral sides from an uppermost spot and which has an intersection of the four curved surfaces below the uppermost spots.

With regard to independent Claim 9, the cited prior art does not disclose four curved surfaces (1-4) on one side where the first surface is opposite to the third surface and the second surface is opposite to the fourth surface with an undeviating laser rays area formed at the intersection of the four curved surfaces.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US Patents: Nordquist, Gorman, Bewsher, Jung, and Ngoi, disclose a non-spherical lens for refracting light or lasers.
